Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on May/02/2000. It is noted, however, that applicant has not filed a certified copy of the foreign application as required by 35 U.S.C. 119(b).

Specification

2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1- 7 and 14-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

For at least claim 1, the limitation of last element of this claim "the first developing electrical field is **different** from the second developing electrical field" (emphasis added) renders claim to be indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention because this limitation of claim do not define what is the difference between two fields.

Art Unit: 2624

For at least claim 14, the limitation of last element of this claim “a first developing electrical field by which a first latent image ... a second developing electrical field by which a first latent image for ...” (emphasis added) renders claim to be indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention because this limitation of claim do not define the limitation of “a first latent image” is controlled by the a second developing electrical field; and the Examiner does not know these latent images are the same or different.

Allowable Subject Matter

5. Claims 8-13, and 21-26 are allowed in which claims 8 and 21 are independent claims.
